

MC-E Quick Reference Guide

- **Set Date** – Set Function Dial to SETUP . Press . Enter MM (Month) DD (Date) and YY (Year). Press to accept.
- **Set Time** – Set Function Dial to SETUP . Press . Enter HH (Hours), MM (Minutes) and (for PM). Press to accept.
- **Assign Station Runtime** – Set Function Dial to SET PROGRAM . Enter the program number and press . Enter station number and press . To select a group of stations, enter the 1st and last station number within the group and press . Enter the desired runtime for the selected station(s) in minutes. Press to accept. Assign a “0” to runtime to deactivate a station.
- **Assign Program Start Time** – Set Function Dial to SET PROGRAM . Enter the program number and press . Press to review programmed start times. Enter start time number being modified or added and press . Enter “HH” (Hours), “MM” (Minutes) and (for PM). Press to accept. Erase a start time by assigning a value of “0”.
- **Assign Station Delay** – Set Function Dial to SET PROGRAM . Enter the program number and press . Press to access station delay. Enter H (Hours), MM (Minutes) and SS (Seconds). Press to accept. Maximum allowable delay is four hours. No delay is the default.
- **Watering Day Schedule** – Set Function Dial to SET PROGRAM . Enter the program number and press . Press to review program schedule. Press to set schedule to even days. Press to set schedule to odd days. Press to activate everyday. Enter the day designation number (1=SUN, 2=MON, etc.) and press to exclude the day from schedule. Reactivate a day by entering the day designation number (1=SUN, 2=MON, etc.) and press .
- **Manual Operation** – Set Function Dial to MANUAL . Enter the station number you want to activate and press . MC-E operates in “True Manual” mode, the station will remain active until midnight. Turn off manual by moving the Function Dial to Auto or by pressing .
- **Rain Off** – Set Function Dial to RAIN OFF . After the 3-second countdown, all automatic watering will halt until the dial is returned to AUTO RUN position. You can also set a rain off duration in days with the maximum rain off delay of 14 days. Enter the desired delay duration in days and press to accept. Return the Function Dial back to AUTO RUN . To deactivate rain off, turn the function dial to RAIN OFF and set rain off value to “0”. Press to accept.
- **Set Event Days** – Set Function Dial to SETUP . Press twice. Enter MM (Month) and DD (Date). Press to accept. Delete Event Days by entering “00 00” to Month and Date.
- **Set Master Valve** – Set Function Dial to SETUP . Press . Press or to select the station number. Press or to toggle ON or OFF.
- **Set Station 2 as Flow Alarm** – Set Function Dial to SETUP . Press . Press for Station or for Flow Alarm.
- **Set a Looping Program** – Set a Start Time to the program. (See **Assign Program Start Time**.) Set Function Dial to SET PROGRAM . Enter the program number and press . Press to access Loop function. Enter End Time in “HH” (Hours), “MM” (Minutes) and (for PM). Press to accept. Delete a looping program by entering a “0” End Time.
