

“Thrift” Drain Cleaner

The usual cause for sluggish drains is a build-up of grease, hair, soap scum or bath oils. Most drain cleaners require 2 to 6 hours (or overnight) for results. THRIFT will liquefy hair and grease in less than 60 seconds!

HOT water activates THRIFT's dry, odorless crystals. Within 60 seconds the drain is clear - even on the most difficult drain blockage. Thrift is also great for sewer lines, grease traps and septic systems.

THRIFT's non-acid formula will not harm fine fixtures, porcelain, chrome trim, polished brass, plastic or metal pipes.

Thrift Acid-Free Drain Cleaner	Other Drain Cleaners
THRIFT is the only four-solutions-in-one product that works on drains, sewer lines, grease traps, and septic systems.	Some competitors may address one or two blockage applications, but not ALL FOUR.
THRIFT will clean out a drain line in less than 60 seconds!	Competitor's products may take several hours or overnight for best results.
THRIFT is safe to use on most kitchen or lavatory surfaces.	Competitor's product may not be safe on acrylic, fiberglass or other surfaces.
THRIFT is an odorless formula and is ideal for use in hospitals, schools, hotels or any place noxious fumes may cause a problem.	Some competitor's products produce dangerous fumes and obnoxious odors.
