

PIPE TOOLS & VISES
SINCE 1896

SAW IT® Pneumatic Saw

Using a variety of blades*, Saw It® cuts plastic (including C-900), steel and stainless steel pipe. Saw It® needs 6" (150 mm) clearance beyond the pipe to accommodate blade movement.

- Immediate start up on throttle squeeze.
- Immediate shut down with throttle release.
- Operates at 300 strokes/minute.
- Trigger lock prevents accidental start if the trigger is bumped or pressed unintentionally.

SAWITSD2

- More **powerful** air motor (old motor 1.5 HP; new 2 HP).
- Better cutting **performance** (up to 20% faster cut).
- **Adjustable airflow** direction for exhaust.

✓ WHY REED?

This saw is safer and cuts straighter than a gas-powered chop saw. The Saw It® Vise allows the saw to pivot straight into the pipe, giving the operator better control over the cut. Used together, the saw and vise make this tool EASY to handle.

CAUTION:
Saw It® is not recommended for gas lines.

| Catalog No. | Item Code | Capacity [1] | | Description | Maximum Power | Air Consumption | Weight | |
|-------------|-----------|----------------|----------------|------------------------------------|---------------|---------------------------------------|--------|-----|
| | | Inch-Nom. | mm-Nom. | | | | lbs | kg |
| SAWITSD2 | 07620 | up to 24" max. | up to 610 max. | Saw It® with Safety Deadman Switch | 2 HP, 1.5 kW | 40 cfm @ 90 psi 18.9 l/s @ 6.2 BAR | 21.5 | 9.8 |
| SAWITVISE | 04600 | 4" – 12" | 102 - 305 | Safety Arm | — | — | 14.0 | 6.4 |

[1] Capacity is dependent on blade and chain extensions.

Accessories

| Item Code | Description |
|-----------|--|
| 40628 | 6" diameter Chain Extension for Saw It Vise |
| 40629 | 12" diameter Chain Extension for Saw It Vise |
| 97583 | Air-line Oil |
| 97588 | Motor Grease, 2 oz. |
| 97591 | FRL (Filter-Regulator-Lubricator) |

FRL #97591

WARNING: Always use a filter-regulator-lubricator (FRL) with the Saw It®. Failure to use an FRL will result in premature motor failure and will negate warranty.

Saw It® Blade Guides reach across the work being cut and stabilize the blade so that it does not whip and vibrate. This extends the blade life, squares the cut and helps eliminate accidental blade breakage. Blade guides are sized to match blade length.

SAWITBG21

| Catalog No. | Item Code | Fits | Capacity |
|-------------|-----------|-----------------|----------------|
| SAWITBG21 | 04602 | 21" Long Blades | Up to 12" Pipe |
| SAWITBG30 | 04603 | 30" Long Blades | Up to 20" Pipe |

Saw It® Vise covers 4"-12" pipe. Order optional chain extension for up to 24" pipe.

Saw It® Blade Guide stabilizes the blade so that it does not whip and vibrate.

Reed strongly recommends the use of the SAWITVISE to provide stability for the cut.

Blades must be purchased separately.

Portable Power Hack Saw Blades

| Catalog No. | Item Code | Length/Width/Thickness Inches - Nominal | mm | Teeth per Inch | Std. Pkg. |
|-------------|-----------|---|----------------|----------------|-----------|
| Z814 | 04478 | 8 X 1 3/8 X .062 | 200 X 35 X 1.6 | 14 | 10 |
| Z1014 | 04479 | 10 X 1 3/8 X .062 | 250 X 35 X 1.6 | 14 | 10 |
| Z1214 | 04494 | 12 X 1 3/8 X .062 | 300 X 35 X 1.6 | 14 | 10 |
| Z1614 | 04495 | 16 X 1 3/8 X .062 | 400 X 35 X 1.6 | 14 | 10 |
| Z2114 | 04496 | 21 X 1 3/8 X .062 | 533 X 35 X 1.6 | 14 | 10 |
| Z2414 | 04497 | 24 X 1 3/8 X .062 | 600 X 35 X 1.6 | 14 | 10 |
| Z3014 | 04498 | 30 X 1 3/8 X .062 | 760 X 35 X 1.6 | 14 | 10 |
| Z1608 | 04499 | 16 X 1 3/8 X .062 | 400 X 35 X 1.6 | 8 | 10 |
| Z2108* | 04597 | 21 X 1 3/8 X .062 | 533 X 35 X 1.6 | 8 | 10 |

*Z2108 is great for PE!

These bi-metal blades are the best choice for heavy-duty power hack saws like Reed's Saw It® and others made by Widder®, Fein®, and Spitznas®. They cut copper, steel, stainless steel, aluminum, and harder plastics like PVC and ABS.

WHY REED?

Extra blade depth (1 3/8") and a Matrix® HSS cutting edge assure superior performance. Bi-metal construction reduces the shatter tendency of solid HSS blades.
