**Due to the mechanical design and electronics in this tool,
service can only be performed at this Milwaukee factory Repair Center:**

**MILWAUKEE ELECTRIC TOOL Central Repair
1013 Sycamore Avenue • Greenwood, MS 38930-7277**

Please send your tool directly to this location for service.

Or

Via e-Service at: www.milwaukeetool.com/e-service
questions, please call 1.800.SAWDUST (1.800.729.3878)

Or

Return it to a MILWAUKEE *factory* Service Center location, freight prepaid and insured.
A copy of the proof of purchase should be included with the return product.

If you have questions please contact Milwaukee Product Service at:

Product Technical Support via phone at: 262.783.8642

Or

Via email at: [METProductSupport @milwaukeetool.com](mailto:METProductSupport@milwaukeetool.com)

Disassembly is not recommended and could void the warranty.

LUBRICATION:**Type S2 Grease (7 oz. tube), No. 49-08-5265**

- A** Place a light, uniform coat of grease around the entire jaw transfer pin (1d).
- B** Lightly coat with grease the ID of pivot pin holes of both press jaws (1f & 1h). Be sure to place a light film of grease on the flange surfaces of both press jaws (1f & 1h) that contact the side plates (1c).
- C** Lightly coat with grease the ID of pivot pin holes of the jaw side plates (1c).
- D** Apply a light coat of grease to the clevis assembly (2a) as shown. Apply a light coat of grease to both rollers (2h) and the roller contact surfaces on the roller carrier (2j).
