EXPANDED LINE FOR IMPROVED PERFORMANCE & APPLICATIONS

NEW LENS STYLES TO FIT USER NEEDS

YELLOW

- Used to enhance contrast in low light applications
- Adds contrast to shadows and lowers the strain on eyes in poorly lit environments
- Often known as amber lenses

GRAY

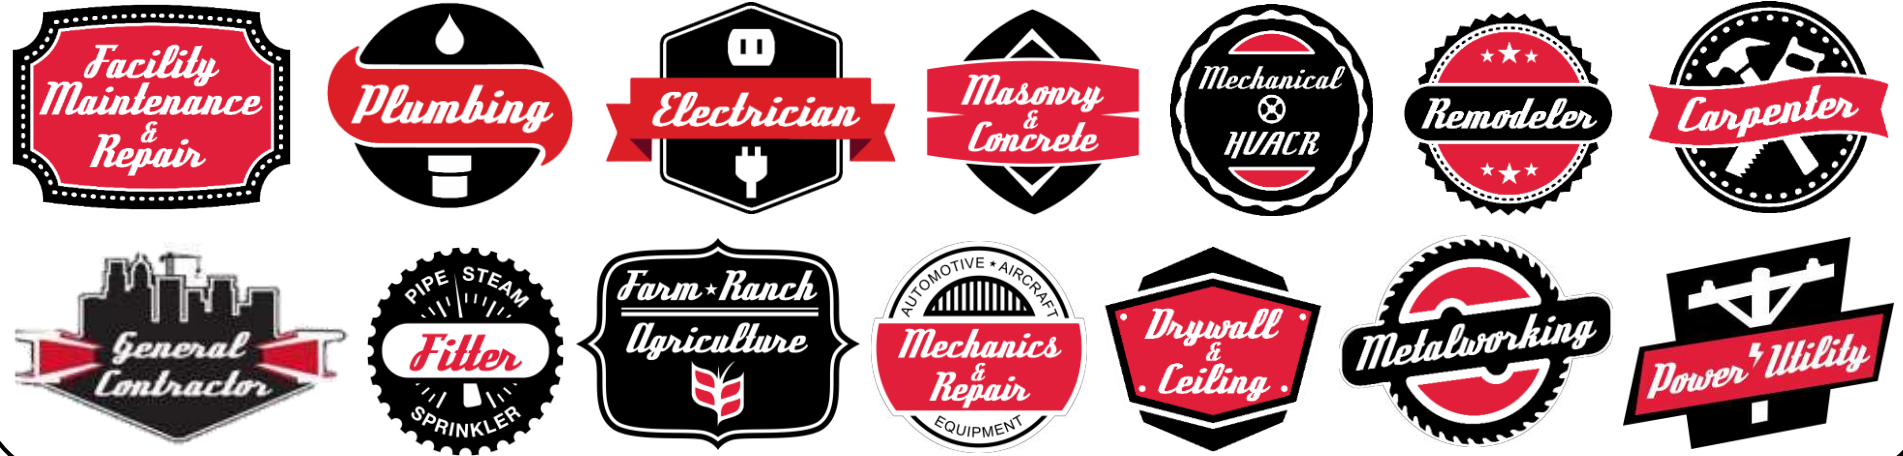

- Allow users to easily transition between indoor and outdoor applications
- Blocks sun and natural glare to lessen the strain on eyes
- Often known as smoke lenses

MAGNIFIED

- Magnified lenses are used to enlarge images. Users need them for applications including precision cutting, small parts, and fine print
- MILWAUKEE® offers magnification ranges from +1.00 to +3.00. (Lowest to highest strength)
- Often known as readers or cheaters

Users

Primary Applications

Safety glasses are used by all core trades and required on every jobsite. Lenses are designed and tested to provide eye protection from impacts and debris. There are a variety of shapes, styles, and lens options to meet work requirements and user preferences.
