

Distilled Water Faucets

Deckmount distilled water faucet

Model No: W6635DI

COMPLIES WITH:

- (Contact Delta Representative for State and/or Local Approvals)

SPECIFICATION:

- Distilled water faucet
- Engineered from modern materials to keep distilled water pure. Celcon control valve is chemically inert to most common laboratory chemicals (not hydrochloric or sulphuric acids)
- Life tested to 500,000 cycles. Operates up to 414kPa (60 psi) line pressure
- Flexible diaphragm seat is moulded to the stem for positive action, seal and long life. Valve diaphragm and entire waterway is inert Tygon material with a Celcon union inlet connection, preventing contact of water with metal components. 1/2" M.I.P. size
- Double action spring loaded handle provides self-closing and full lock-open flow operation
- All spouts are rigid and made from heavy duty 3/8" I.P.S. brass pipe, with inert lining Tygon tubing.
- Forged brass turret with vandal resistant locking pins to prevent damage to mounting surface (can be removed in field if not required)
- Brass locknut and raised lockwasher to provide positive gripping during installation
- Deckmount distilled water faucet
- Chrome Finish
- Spout: - 6" Radius Gooseneck (standard)
- Outlet: Self-closing and lock-open celcon control valves
- Assembled Shank:
- Indexed For: DI - Deionized Water (White)

OPERATION:

- Not Available
