

Supports continued

- Designed to support up to 29' of ULTRA-TEMP Chimney in a wall installation above the tee or above an offset. It can also serve as an intermediate support.
- This universal design will work on 5", 6", 7" and 8" diameters.

Size	Product No.	Part No.	Pack
5", 6", 7", 8"	200260	UWRSA	1

VERTICAL SUPPORT CHART	
Diameter	Height of Support
5"	29'
6"	28'
7"	25'
8"	20'

- Designed to support a vertical wall installation above the insulated tee, the Universal Extended Wall Support can support up to 28 feet of chimney.
- It adjusts up to 12" from the vertical wall and can pass by a 12" overhang.

Size	A	B	C	Product No.	Part No.	Pack
6"-8"	22"	5"	8"-10"	0805900	UEWS	1

- Required to support offset at the immediate section of chimney above the upper elbow of an offset.
- Will support 25' of 4" diameter chimney.
- For diameters from 5" to 14", it will support 18'.
- Straps are 17.5" in length.

Size	Product No.	Part No.	Pack
4"	HT4IOS	N/A	1
5"	205435	5T-IR	1
6"	206435	6T-IR	1
7"	207435	7T-IR	1
8"	208435	8T-IR	1
10"	210435	10S-IR	1
12"	212435	12S-IR	1
14"	214435	14S-IR	1

- Incorporates the flexibility to work on 5", 6", 7" and 8" diameters and is an excellent method for resupporting chimney systems that have offsets or vertical runs that require additional support (up to 18').
- Straps measure 18".
