Why kitchens need

Fresh salmon fillets are reason enough. But that's really just a start. Because cooking smoke and greasy build-up are more than unpleasant. They're unhealthy. In fact, cooking churns out airborne contaminants like nothing else in the home can. This concentration of contaminants requires effective ventilation. That's where Broan comes in. As the residential ventilation leader, Broan offers more range hood kitchen ventilating solutions than anyone.

From high-performance ducted models, to the most effective non-ducted units ever made. And they're all built to Broan's demanding quality standards.

So you can count on them to help keep your kitchen cleaner for years to come. Built-in lighting means you can count on your Broan range hood to keep your kitchen brighter. Some units even include a convenient nightlight feature.

There really is a difference with Broan. It's in the details.

BROAN *Elite*

Broan® Elite (Rangemaster®), our premier range hoods, offer high performance and unique style to define your kitchen. See pages 6–17, and 24–30.

ventilation.

Problem. Your over-the-range microwave doesn't effectively capture smoke and odors. Your children can't reach it without climbing on the counter, not to mention trying to use it while someone else is cooking.

Solution. Improve the ventilation in your kitchen by replacing your over-the-range microwave with a handsome Broan range hood. Move your microwave to a shelf next to the refrigerator and improve not only the safety of your kitchen, but its efficiency as well.

How do you cook?

What do you expect your range hood to do?

Broan has styles and accessories to

Chimney and High Performance Hoods

Do you have an open concept kitchen?

Consider a chimney style range hood. Distinguish your kitchen with a centerpiece that provides function and high style. Be sure your blower matches the BTU output of your range.

Looking for convenience in a high performance range hood?

Under cabinet range hoods provide homeowners with high style and modern convenience. Sleek designs fit snugly under cabinets and stainless steel bottoms make cleaning easy. Be sure your blower matches the BTU output of your range.

Power Packs

Thinking of designing custom cabinetry?

Power packs allow you to conceal your range hood under a cabinet for a clean look. Insert a power pack and achieve all the benefits of a Broan range hood.

Protect your cabinetry with custom liners. They protect your cabinetry from steam and grease while providing a custom fit all the way around.

Downdrafts

Looking for a range hood that's there when you need it and hidden when you don't?

Downdraft range hoods are perfect for island or peninsula installations. You receive the right amount of ventilation literally at the push of a button.

An optional remote control button puts you in charge from anywhere in the kitchen.

suit every need.

Select an In-Line or Exterior blower.*

If desired, choose an In-Line or Exterior blower option. Exterior blowers can be roof- or wall-mounted, depending on your appearance preferences, or to best suit your ducting requirements. In-Line blowers perform quietly and mount in the attic space.

In-Line

Exterior

Do you have tall ceilings and a chimney hood?

You'll need a flue extension if your ceiling height is greater than 9'. Flue extensions are matched to the shape, style and color of the range hood you select. Extensions for ceiling heights over 10' feet have a 14-week lead time.

Going for a professional or decorator look?

Consider adding stainless steel baffle filters, warming racks or a backsplash. These durable accessories are functional and easy to clean.

Select an In-Line or Exterior blower.*

If desired, choose an In-Line or Exterior blower option. Exterior blowers can be roof- or wall-mounted, depending on your appearance preferences, or to best suit your ducting requirements. In-Line blowers perform quietly and mount in the attic space.

In-Line

Exterior

Replacement and odor absorbing filters.

Recirculate fresh filtered air back into the kitchen. They are made from the highest quality materials to provide the longest life possible.

Select an In-Line or Exterior blower.*

If desired, choose an In-Line or Exterior blower option. Exterior blowers can be roof- or wall-mounted, depending on your appearance preferences, or to best suit your ducting requirements. In-Line blowers perform quietly and mount in a remote location.

In-Line

Exterior

Equalized Air Pressure For A Well-Balanced Home (and budget).

Providing make-up air for exhaust devices is easy, controlling it is not—until now. Broan® Automatic Make-Up Air Dampers are the first to provide synchronized operation for kitchen, bath and whole house ventilation products. Installation is simple and requires no special wiring. The intelligent design options ensure optimum performance in a variety of installations and applications. Highly effective and affordable, Broan Automatic Make-Up Air Dampers strike the perfect balance to keep you and your home breathing easy.

* Broan blowers are designed and UL Listed or recognized for use with Broan products only.

BROAN® *Elite*

The design says professional.
The details say perfection.

Sophisticated tastes deserve sophisticated styling. That's why we created the Broan Elite Series. These range hoods are unique works of art that flawlessly blend style, power and durability. Choosing between them won't be easy. One thing, however, is certain: you're sure to be completely satisfied with the combination of style and power you select. Our commercial-style range hoods feature serious ventilating performance for the serious home chef. They're specifically designed for use with high BTU, commercial-style ranges. They also accommodate the high-capacity demands of residential woks and cooktop grills. And, since true satisfaction and exquisite taste go hand-in-hand, we offer an extensive selection and a wide array of options and colors.

Broan Elite 63000/63000EX (Island)

Rangemaster

Perfection—any way you look at it. This free-hanging island hood will draw the eye from every vantage point.

- Enduring style, stainless steel construction.
- Seamless corners for easy cleaning.
- Concealed three-speed control.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- 27 $\frac{7}{8}$ " x 39 $\frac{3}{8}$ " (70 cm x 100 cm) size.
- Superior lighting from four 20-watt Halogen lamps included (one level).
- The 63000EX models are designed to operate with Broan Elite External blowers, providing a choice of four Exterior models: 600, 900, 1200 or 1500 CFM or four In-Line models: 280, 600, 800 or 1100 CFM.
- Telescopic flue fits 8' to 9' ceilings.
- Easily removable, dishwasher-safe stainless steel grease filter.

27000	120	4	500*	3 1/4" x 10"
28000	120	6.0 max	*	3 3/4" x 10"†

* 299 CFM max with ARP310 reducer plate option.

* External unit utilizes model 332H Exterior-mounted blower. In-Line blower sold separately.

** Cooktops, countertops and cabinets vary in dimension and support systems depending upon manufacturer. These factors may impact the Eclipse's ability to fit with every worktop/cabinet combination. Specifications subject to change without notice.

† The model 28000 requires transitioning from 3 3/4" x 10" to 10" round for connection to the External blower.

* Stainless Steel cover standard. White, Bisque or Black optional.

Liners for RMP1/RMPE Power Pack

Broan Elite Liners provide a beautiful way to finish your custom hood and protect your cabinetry. Designed to work with Broan Elite Pro-Insert and Power Packs, liners feature a 3" adjustable nose to provide application flexibility, and a 4" depth for excellent capture.

- Brushed stainless steel finish.
- Liners protect custom hoods and are available for 30", 36" and 48" widths.
- Two versions for maximum flexibility in depth adjustment: "S" version adjusts 17 $\frac{1}{8}$ "–20 $\frac{1}{8}$ ". "L" version adjusts 20 $\frac{1}{8}$ "–23 $\frac{1}{8}$ ".
- Liners are based on the outside width of the custom hood.

Broan Elite Custom Power Pack RMP1/RMPE

The Broan Elite Custom Power Pack is designed to fit flush with the bottom of a cabinet or custom hood that's 30" to 48" wide. The 400 CFM centrifugal blower is combined with a multi-speed control to provide quiet, effective performance. Halogen lighting complements the beauty of a fully enclosed bottom containing dishwasher-safe filters.

Liner is 4" in depth

RML7030S/RML7030L
RML7036S/RML7036L
RML7048S/RML7048L
 For RMP17004 and RMPE7004 Packs

Shown with optional baffle filters.

Liners for the RMIP Pro-Style Insert

Broan Elite Liners provide a beautiful way to finish your custom hood and protect your cabinetry. Designed to work with Broan Elite Pro-Insert and Power Packs, liners feature a 3" adjustable nose to provide application flexibility, and a 4" depth for excellent capture.

- Brushed stainless steel finish.
- Liners protect custom hood and are available for 36", 42", 48", 54" and 60" widths.
- Liners allow depth adjustment from 22 $\frac{1}{2}$ " to 25 $\frac{1}{2}$ ". Fits stock 24" cabinets.
- Liners are based on the outside width of the custom hood.
- All models compliant with CA Title 24.

Broan Elite RMIP Pro-Style Insert

The Broan Elite RMIP Pro-Style Insert fits flush with the bottom of the cabinet or custom hoods. Centrifugal blowers from 500 to 1500 CFM with multi-speed control provide quiet and effective performance. Halogen lighting complements the beauty of its fully-enclosed, easy-to-clean bottom.

Liner is 4" in depth

RML3336S/RML3342S For RMIP33

Liner is 4" in depth

RML4548S/RML4554S/RML4560S For RMIP45

- Multi-speed control.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- 400 CFM internal blower (<300 CFM with ARP6).
- External blower model (RMPE) allows a choice of eight blower options: four Exterior: 600, 900, 1200 or 1500 CFM, or four In-Line: 280, 600, 800 or 1100 CFM.
- Two 50-watt halogen lamps included.
- Dishwasher-safe aluminum filters feature a quick-release latch and professional-style appearance.
- Optional non-ducted filters (FILTEREB40) for indoor exhaust recirculation, some ductwork required (RMP17004 only).
- Install power pack so that the bottom of the unit is 24" to 30" above the cooking surface.
- Optional custom hood liners in 30", 36" and 48" widths.

* All blowers must be purchased separately and are HVI Certified. See blower specifications table on page 43.

▲ All ratings for vertical duct only.

• 299 CFM max with ARP310 reducer plate option.

RMIPWC Optional Wall Control for RMIP

Remote wall control provides both variable speed and light control from a more convenient location. Designed to work with the RMIP Pro-Style Insert only.

3-STEP POWER PACK AND BLOWER SELECTION GUIDE

1. Select a Power Pack system

RMP17004, 400+ CFM Internal blower

- 27 1/4" width, 11 1/4" depth

RMPE7004, 280–1500 CFM External blower options

- 27 1/4" width, 11 1/4" depth

2. Select a Liner to fit your cabinetry

If the cabinet/hood inside depth is 18"–21", choose model:

- RML7030S for 30" width

- RML7036S for 36" width

- RML7048S for 48" width

If the cabinet/hood inside depth is 21"–24", choose model:

- RML7030L for 30" width

- RML7036L for 36" width

- RML7048L for 48" width

3. Select an Internal or External Blower

RMP17004, Internal 400 CFM blower is included

RMPE7004, External blower options (choose one):

Exterior blowers (outside, roof or wall):

- 331H (600 CFM)*

- 332H (900 CFM)*

- 335 (1200 CFM)*

- 336 (1500 CFM)*

In-Line blowers (inside, attic or other space):

- HLB3 (280 CFM)*v

- HLB6 (600 CFM)*

- HLB9 (800 CFM)*

- HLB11 (1100 CFM)*

* 8"–10" transition (model 414) is required for the Exterior or In-Line models.

3-STEP INSERT & BLOWER SELECTION GUIDE

1. Select the right size Pro-Style Insert

- RMIP33 (33" width) or RMIP45 (45" width)

- Both feature an 18 1/4" depth

- 460* or 850 CFM Internal blower options

- 280–1500 CFM External blower options

2. Select a Liner to fit your cabinetry

For cabinet/hood inside depths of 23"–26" choose:

- RML3336S 36" width, use with RMIP33

- RML3342S 42" width, use with RMIP33

- RML4548S 48" width, use with RMIP45

- RML4554S 54" width, use with RMIP45

- RML4560S 60" width, use with RMIP45

3. Select a blower for your Insert

Internal blowers:

- P5 (460 CFM)

- P8 (850 CFM)

Exterior blowers (outside, roof or wall):

- 331H (600 CFM)*

- 332H (900 CFM)*

- 335 (1200 CFM)*

- 336 (1500 CFM)*

In-Line blowers (inside, attic or other space):

- HLB3 (280 CFM)*

- HLB6 (600 CFM)*

- HLB9 (800 CFM)*

- HLB11 (1100 CFM)*

* 332KR Rough-In Kit is required when used with Exterior and In-Line blower options above (purchased separately).

Model PM390 shown.

Custom Hood Kit

Ultimate ventilating solution for custom range hood designs.

The Custom Hood Kit is the perfect match of high performance ventilation and adjustable construction.

Custom Hood Power Packs and Modules

High-performance ventilation solutions.

These integrated units provide the ventilation and lighting you need for your custom application.

PM390 & PM250 Liners

Broan "T" and "B" liners provide an elegant way to finish a traditional wood hood and protect cabinetry. They feature a durable silver painted finish and a 4" depth for good capture. Hemmed edges hide exposed edges, and pre-drilled mounting holes make installation easy.

LT30 & 36 "T" liners work with wood hoods that are integrated with adjacent 12" deep cabinets.

LB30 & 36 "B" (box) liners fit into 18" deep wood hoods or cabinet bottoms.

- Fits into custom cabinetry from 30" to 42" wide.*
- Powerful, quiet 360 CFM/5.0 sone performance (vertical discharge only).
- 24" fluorescent tube lighting (bulb not included).
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- For ducted installations, includes damper/adaptor for 3¼" x 10" duct.
- Must order model 103123 Rough-In Kit.

Range Hood Specifications

Fluorescent Tube: 24", F20T12 (not included).

* For installations up to 36" order extension kit No. 97009790.

** Duct vertical only.

MODEL PM390

- Silver paint finish.
- Three speed, slide control.
- Heat Sentry™ detects excessive heat and adjusts speed automatically.
- Quiet centrifugal blower, 390 CFM, vertical discharge (<300 CFM with ARP6).
- Dual 40-watt lamps (Purchase separately).
- Dishwasher safe aluminum filter.
- For ducted installations, includes adapter and damper for 6" round duct.
- Optional non-ducted filter kit (Purchase separately).
- Works with optional custom hood liners in 30", 36", "Box" or "T" design.
- ENERGY STAR® version on pg 20-21.

MODEL PM250

- Silver paint finish.
- Two speed motor, rocker control.
- Efficient 250 CFM fan (vertical discharge).
- Dual 40-watt lighting (Purchase lamps separately).
- Dishwasher safe aluminum filter.
- For ducted installations, built-in adapter for 7" round duct.
- Optional non-ducted filter kit (Purchase separately).
- Works with optional custom hood liners in 30", 36", "Box" or "T" design.

* 299 CFM max with ARP310 reducer plate option.

Choose from a full line of ENERGY STAR® qualified range hoods from the experts!

Broan® introduced the first ENERGY STAR® qualified range hoods with the QDE Series. Now, we're growing our ENERGY STAR® range hood family with four new designs. All meet Green Building program requirements from USGBC®, LEED®, NAHB and ENERGY STAR® with energy-efficient motors and compact fluorescent lighting. What's more, all are certified by HVI (Home Ventilating Institute) so you know you have a powerful hood. Save energy—and money—with ENERGY STAR® qualified range hoods from Broan. ENERGY STAR® is a registered mark owned by the U.S. government.

Broan Elite RME50000

Rangemaster

Beautiful, yet attainable.

European design with tremendous value to meet the requirements of today's conventional appliance and kitchen styles.

- Three-speed slide control and integrated dual fluorescent light assembly.
- 290 CFM at maximum speed.
- 0.5 Sones at normal (135 CFM).
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Dual 13-watt fluorescent lamps included (one level).
- Dishwasher-safe aluminum filter features a quick-release latch and professional style appearance.
- Ducted telescopic flue accommodates ceiling heights from 8 to 9 feet. Extension flues for higher ceilings are also available.*
- Install hood so that the bottom of the unit is 24 to 30 inches above the cooking surface. Mounting height is determined by ceiling height.

E64000 shown with a custom backsplash.

Broan Elite E64000 Series

Professional style that fits under any cabinet.

E64000 shown with non-duct recirculating kit and a custom backsplash.

Broan Elite Options

Adapt to any installation. Quality Broan Elite options let you create a custom look.

- Restaurant-quality stainless steel backsplash with fold-down shelves completes the commercial look and is easy to clean.
- When venting to the exterior is not possible, an optional non-duct kit will filter air through charcoal filters and recirculate it back into the kitchen.

True professional style and performance has never been easier to bring home.

- Brushed stainless steel finish.
- Bright halogen lighting with two settings; Two 50-watt bulbs in 30" and 36" widths, Three 50-watt bulbs in 42" and 48" widths (purchase bulbs separately).
- Pro-style, dishwasher-safe baffle filters with removable grease drip rail.
- Variable speed control remembers last setting—blue power-on indicator light.
- Heat Sentry™ detects excessive heat and adjusts blower speed automatically.
- Designed to duct out of the hood shell in either horizontal or vertical direction with internal blowers. External blowers duct vertically.
- Designed to work with Broan Automatic Make-Up Air Damper.

30" for 10' ceiling	AEEP30SS	AEEP30SSE

Flue cover available in corrosion resistant stainless steel

Extra deep design and improved performance for best-in-class capture.

- Professional outdoor design.
- Deep 27" depth to handle heat and size of outdoor gas grills (optional 3" wall extension).
- Brushed corrosion resistant stainless steel.
- Two widths: 36" and 48".
- Powerful 1100 CFM internal blower.
- Bright halogen lighting; two in 36", three in 48" model (bulbs not included).
- 3-speed rotary control designed to resist the effects of heat and moisture.
- Stainless steel baffle filters.
- Heat Sentry™ detects excessive heat and adjusts blower speed automatically.
- HVI certified performance.

Range Hood Specifications

WIDTH	STAINLESS STEEL	BLOWER	VOLTS	AMPS	CFM	SONES	DUCT
36"	EPD6136SS	Internal	120	9.0 Max	1100	11.0	10" RD
48"	EPD6148SS	Internal	120	9.0 Max	1100	11.0	10" RD

1100 CFM Internal Blower tested to assure operation in corrosive environments.

Optional Accessory

3" WALL EXTENSION

AWEPD36SS

AWEPD48SS

Optional 3" wall extension creates 30" depth for even greater coverage; eliminates expensive custom wall bump-outs

Broan Elite E661

Ultra Quiet Performance. The clean, smooth design of this range hood fits snugly under cabinets and provides quiet and effective ventilation.

- Super quiet <0.3 sones at normal speed.
- Enclosed stainless steel bottom with dishwasher-safe aluminum filter with easy release latches.
- Brilliant dual 50-watt halogen lighting (GU10 bulbs not included).
- Three-level light settings with last setting memory and transitional theater style lighting. Intensities change gradually.
- Large recessed bottom filter area increases capture.
- Up to 600 CFM internal blower (3¼" x 14" duct, convertible to horizontal or vertical discharge; <300 CFM with ARP314).
- Three-speed plus boost with last setting memory and 5-minute delay off feature.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.

* Optional accessory, T461 Adapter 3¼" x 14" to 3¼" x 10" (will reduce CFM a minimum of 100 CFM).

⁺ Performance levels are for horizontal discharge (vertical boost 550 CFM).

** 299 CFM max with ARP314 reducer plate option.

Evolution™ 4

EVOLUTION 4 tops our line with brilliant lighting features, plus greater blower control boasting a 600 CFM blower that is the quietest in the line.

BCR1

An optional remote control with magnetic base enables operation of blower speed, lighting and delay-off feature from across the room.

- Super quiet <0.3 sones at normal speed.
- Brushed Stainless Steel.
- Easy-to-clean, fully-enclosed non-stick bottom pan.
- Dishwasher-safe, quick latch, aluminum premium-mesh filters with antimicrobial coating.
- Soft-touch, four-speed and lighting control panel, green LEDs with clock/timer, delay-off, ambient light sensor and sleep mode.
- Four-speed blower control includes boost mode. Delivers 630 CFM.
- Optional remote control with blower speed, lighting and delay on/off control capability (battery included).
- Four Halogen MR16/GU10 50W lamps (bulbs included).
- Four-level light settings with theater-style transitions; plus ambient light sensor that automatically turns lighting on at night.
- Broan Advanced Heat Sentry™ detects excessive heat and adjusts blower speed for proper ventilation.
- Compatible with optional make-up air damper accessory.

Optional Accessories

*3-1/4"x10" damper/adaptor (T461) accessory available (reduces max CFM by 100 CFM).

Advanced soft-touch digital display.

EVOLUTION™ 3

EVOLUTION 3 has brilliant lighting features, plus greater blower control including a Boost mode that serious cooks will adore.

- Super quiet <0.3 sones at normal speed.
- Brushed Stainless Steel, Black or White finishes.
- Easy-to-clean, fully-enclosed non-stick bottom pan.
- Dishwasher-safe, quick latch, aluminum premium-mesh filters with antimicrobial coating.
- Soft-touch, four-speed and lighting control panel, green LEDs with clock/timer, delay-off, ambient light sensor and sleep mode.
- Four-speed blower control includes boost mode. Delivers 450 CFM.
- Optional remote control with blower speed, lighting and delay on/off control capability (battery included).
- Four Halogen MR16/GU10 50W lamps (bulbs included).
- Four-level light settings with theater-style transitions; plus ambient light sensor that automatically turns lighting on at night.
- Broan Advanced Heat Sentry™ detects excessive heat and adjusts blower speed for proper ventilation.
- Compatible with optional make-up air damper accessory.

Ducting: 3-1/4" x 10" (includes damper/adapter), or 7" round (includes adapter). Non-ducted installation requires optional CleanSense™ charcoal filters, purchased separately.

BCR1

An optional remote control with magnetic base enables operation of blower speed, lighting and delay-off feature from across the room.

EVOLUTION™ 2

EVOLUTION 2 provides the control, power and lighting you need in four attractive finishes.

- Very quiet 0.6 sones at normal speed.
- Brushed Stainless Steel, Black, White or Bisque finishes.
- Easy-to-clean, fully-enclosed non-stick bottom pan.
- Dishwasher-safe, quick latch aluminum micro-mesh filters with antimicrobial coating.
- Soft-touch lighting and three-speed blower control panel, green LEDs.
- Internal blower delivers 350 CFM.
- Four Halogen MR16/GU10 50W lamps (bulbs included).
- Three-level light settings with theater-style transition.
- Broan Advanced Heat Sentry™ detects excessive heat and adjusts blower speed for proper ventilation.

Soft-touch electronic control.

EVOLUTION™ 1

EVOLUTION 1 is ideal for those who feel simplicity defines elegance.

- Very quiet 0.8 sones at normal speed.
- Brushed Stainless Steel, Black or White finishes.
- Easy-to-clean, fully-enclosed underside.
- Dishwasher-safe, quick latch aluminum mid-mesh filters with antimicrobial coating.
- Internal blower delivers 300 CFM.
- Simple, two-speed blower and lighting controls.
- Four Halogen MR16/GU10 35W lamps (bulbs not included).
- Two-level light settings.

For the 42" EVOLUTION 1 refer to the EVOLUTION 2 line art.
Ducting: 3-1/4" x 10" (includes damper/adaptor), or 7" round (includes adaptor). Non-ducted installation requires optional CleanSense™ charcoal filters, purchased separately.

Convenient, two-setting control.

QS3 Series (Allure III)

For unparalleled style, quiet, ease of operation and performance.

The ultimate Allure model, combines features like three-speed electronic control plus boost-speed mode, delay-off and filter cleaning reminder. For the first time anywhere, you can have the easy cleaning of DuPont Teflon® in a range hood.

Deluxe glass-look finish, in matching colors. LED indicators for each speed.

QS2 Series (Allure II)

Sets new standard for style, quiet and ease of cleaning.

The Allure II provides the style and performance you demand and with DuPont Teflon®, the easy clean-up you want.

Matte finish in matching color. LED indicators for each speed.

QS1 Series (Allure I)

The new benchmark in style and value.

The quietest range hood in its category, with revolutionary performance and the brilliance of halogen lighting. This isn't anything like your Mom's range hood; it's the one she wished for.

Rocker controls and nameplate in matching matte colors.

- Ultra quiet 0.4 sones at normal speed; extra powerful 430 CFM boost.
- Easy-to-clean DuPont Teflon® bottom pan; fully enclosed design.
- Professional style filters; dishwasher-safe.
- Three-level light settings; dual halogen lamp design (bulbs not included).
- Advanced Heat Sentry™ detects excessive heat and adjusts hood speed for proper ventilation.

Compact fluorescent lighting.

QDE Energy Efficient Range Hood

The first ENERGY STAR® qualified range hood on the market.

Leave it to the ventilation experts to develop the first range hood that provides the ventilating power you need while using less energy. The QDE Series does it all, and quietly too, all while meeting Green Building Programs such as USBBC®, LEED®, NAHB and ENERGY STAR®. And that means you can expect a total lifetime energy savings of 564 kWh over comparable standard range hoods.

- Stainless steel, black or white finishes.
- Two speed rocker switch.
- 290 CFM at maximum speed.
- 0.8 sones max at normal speed 130 CFM.
- Acoustic insulation surrounds the motor.
- Vertical or horizontal discharge.
- Dual, compact 13-watt fluorescent bulbs (included) last up to five times longer than incandescent lighting.
- Dishwasher safe aluminum filters and blower wheel.

Range Hood Specifications

SERIES	WIDTH	STAINLESS STEEL	WHITE	BLACK	VOLTS	AMPS	CFM High/Low**	SONES High/Low**	DUCT

*Rectangular adapter/damper included.

**All ratings in horizontal duct position.

Antimicrobial Coating

Broan combines antimicrobial protection with advanced AP1 mesh filters for unsurpassed benefits:

- Inhibits the growth of odor causing bacteria so filters stay fresher longer.
- Protects the filter so it stays cleaner in between cleanings.

Broan AP1 & RP1 Series

Presenting Broan's newest pro-style hoods.

Never before have appearance and value come together so elegantly.

Features common to both models:

- Brushed stainless steel, black, and white finish options.
- 9" Pro-style hood height for excellent capture.
- Hidden controls.
- 30" and 36" widths available.
- Internal 440 CFM centrifugal blower (<300 CFM with ARP310).
- Two-level dual 50-watt halogen lighting (GU10 bulbs purchased separately).
- Heat Sentry™ is a smart feature that detects excessive heat and adjusts speed to high automatically.

- **ENERGY STAR®** version on pg 22–23.

AP1 features:

- Dishwasher-safe micromesh filters have a special coating to keep the filters looking new over repeated cleanings, and exclusive antimicrobial protection.
- Variable speed blower control.
- Non-duct recirculation kit available with charcoal filters.

RP1 features:

- Dishwasher-safe micromesh filters.
- Two-speed blower control.

Broan 89000 Series

Contemporary lines for a one-of-a-kind kitchen. Clean lines complement the contemporary kitchen or boldly contrast the flowing styles of more traditional settings.

- Higher capacity; developed specifically for use with today's cooktop grills up to 14,000 BTUs.
- 460 CFM, 6.0 sones (vertical discharge) or 440 CFM, 7.0 sones (horizontal discharge) performance, HVI Certified.
- Infinite speed slide control with blower memory feature that saves last settings.
- Standard Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Designed for either vertical or horizontal ducting. Includes 3 1/4" x 10" damper/adapter.
- Accepts two 75-watt bulbs (not included).

Allow 18" minimum
from cooking surface
to bottom of hood.

Broan Elite 15000

Slides out of sight when not in use.

- Compact, trim styling complements any kitchen.
- Fan and light automatically turn on when you slide out the clear glass visor; shut off when pushed in.
- Energy-efficient, 24" fluorescent light with prismatic glass lens provides bright, even cooktop lighting (bulb not included).
- Dual centrifugal blower, 300 CFM, at a quiet 4.5 sones, HVI Certified.
- Infinitely adjustable blower control conveniently located up front; features blower memory — when activated, unit automatically "remembers" the last setting you selected.
- Exclusive Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Includes 3 3/4" x 10" duct adapter with built-in damper.

Broan QT20000

Combines modern styling and quiet operation. Research shows that most people use their range hood less frequently because of loud fan noise. That's why the QT hood was developed.

- Patented air chamber design reduces noise up to 40 percent over conventional hoods; 200 CFM, 4.5 sones (vertical discharge), HVI Certified.
- Convertible versatility. Installs as 3 3/4" x 10" (vertical or horizontal), 7" round (vertical) or non-ducted (non-ducted filter sold separately).
- Infinitely adjustable, rotary speed control.
- Larger filter area captures steam and odors.
- Dual 40-watt lamps increase light distribution; nightlight feature adds safety (lamps not included).
- Includes 3 3/4" x 10" damper/adaptor and 7" round adapter.
- 7" round damper optional.
- BP87 damper sold separately.

Broan 43000/F40000

Adapt to any installation. These 4-way convertible range hoods will fit into most all applications. Enclosed light and fan/filter assemblies make for easy cleaning.

43000 Series

- Features enclosed light and fan/filter assembly for easy clean-up.
- Two-speed, rocker-type fan control.
- Powerful 190 CFM, 7.0 sone (3 $\frac{3}{4}$ " x 10" vertical discharge) or 220 CFM, 8.0 sone (7" round discharge) performance.
- Bright 75-watt light (bulb not included).
- Includes 3 $\frac{3}{4}$ " x 10" damper/adaptor and built-in 7" round adapter.
- 7" round damper optional.
- BP87 dampers sold separately.

F40000 Series Convertible Range Hoods

- Four-way convertible; installs ducted 3 $\frac{3}{4}$ " x 10" (vertical and horizontal), 7" round (vertical) and non-ducted (non-ducted filter sold separately).
- 160 CFM, 6.5 sone (3 $\frac{3}{4}$ " x 10" discharge) or 190 CFM (7" round discharge) performance – HVI Certified.
- Dishwasher-safe aluminum grease filter.
- Includes 3 $\frac{3}{4}$ " x 10" damper/adaptor and 7" round adapter.
- 7" round damper optional.
- BP87 dampers sold separately.

Retail Replacement Filter Packs

The most popular and commonly used filters are available in consumer-friendly packs. Broan filters are made from the highest quality materials to provide the longest life possible and keep your range hood operating at peak performance. Broan also provides replacement filters for many other brands.

Non-ducted filters should be replaced every 3–6 months or more often if cooking style generates extra grease.

	MD8TU 8" Universal Make-Up Air Damper.

External, Exterior Blowers*

Our Exterior blowers offer you powerful ventilation performance at its very quietest, and something you won't find anywhere else—Broan quality.

- **Reduce kitchen noise by locating your range hood blower outdoors.**
- **For use with our professional style Broan Elite E64000, E60000 and EX Series chimney hoods, downdrafts, RMPE Power Pack and RMIP Inserts.**
- **Ideal for custom hoods—use the 72W (6 amp variable speed) wall control for remote control of External blowers.**
- **The 332H is recommended for the Eclipse downdraft.**
- **Residential design fits unobtrusively on home exterior.**
- **Durable, weather-resistant, all-aluminum construction that mounts on the roof or outside wall.**
- **Safety screen keeps small animals and debris away from blower and motor.**

Model 331H/332H

All Exterior blowers can be installed on the roof or to an outside wall for the ultimate in quiet, high performance kitchen ventilation.

Quietest sound level is achieved when the blower is mounted at least 10' from the hood location and incorporates a 90° elbow in the duct run.

331H (600 CFM)

335 (1200 CFM)

332H (900 CFM)

336 (1500 CFM)

External, In-Line Blowers* This quiet performance solution is a perfect alternative to Internal or Exterior blowers. Works with all Broan range hoods designed for use with External blowers.

HLB3 (280 CFM)
HLB6 (600 CFM)
HLB9 (800 CFM)
HLB11 (1100 CFM)

- **Powerful and quiet, In-Line blowers are available in a range of CFM ratings to match your cooking preferences and ventilation requirements.**
- **Installs remotely in the interior of the home – not restricted by local exterior home codes or service concerns for roof-mounted exterior applications.**
- **8-position mounting brackets, or suspends with special suspension chains (hanger kit included).**
- **Designed to work independently from Internal or Exterior blowers, this is not a boost blower—the HLB series needs no other blowers in the system.**
- **Specially designed resilient motor mounts and housing isolation mounts prevent vibration noise.**
- **Flexible duct design allows straight-through or right-angle connections with built-in damper.**
- **Includes 10" round ductwork transition(s).**

Internal Blower*

Broan Elite Internal blowers provide high ventilation and durable construction to meet the needs of professional-style cooking appliances for the home.

P5 (460 CFM)
P8 (850 CFM)

- **The P5 and P8 are designed for use with Broan Elite RMIP Inserts.**
- **All blowers are designed for quiet operation using the finest motors and balance wheels.**
- **Rough-In Kits are included to make the installation clean and simple.**

*Broan internal and external blowers are designed and UL Listed for use with Broan products only. Use with other manufacturers' products cannot be recommended.

Broan range hoods can be used to comply with California's Title 24.

Installation and blower selection guidelines

1. Distance from cooking surface:

For optimal performance, the distance from the cooking surface to the bottom of the range hood should be between 24" to 30", unless otherwise noted. DO NOT install a Broan Elite range hood less than 24" above cooking surface.

To maintain hood performance at heights greater than the recommended range, use the following guidelines:

- For every 3" increase in installation height, add 100 CFM to the minimum exhaust requirement and/or a minimum of 3" to the hood/liner width (may require going to the next hood width).

2. Range hood width:

The hood should never be less than the width of the cooktop.

3. Required blower CFM based on cooktop BTU output.

- For gas cooktops UNDER 60,000 BTUs or electric, choose a blower with a minimum of 100 CFM per lineal foot of your cooktop width. For example, a 36" wide cooktop requires a blower with a minimum of 300 CFM.
- High heat cooking or aromatic foods may require additional CFM. Always check with the range manufacturer. NOTE: Increasing capture area by 3" on each side is also a recommended way to address this issue.

- As a means to estimate the approximate CFM requirement for gas cooktops OVER 60,000 BTUs, choose a blower with 1 CFM per 100 BTU of cooktop output. To quickly calculate this number, add the BTU output from all burners and drop the last two zeros. For example, if the total BTU output of the cooktop burners is 65,000 BTUs, choose a blower with at least 650 CFM.

4. Additional CFM needs for a Grill or Griddle:

If your cooktop has a grill or griddle, ADD 200 CFM to your estimated CFM needs as calculated in step 3. For example, if your cooktop BTU output requires a 650 CFM blower, add 200 CFM for a total of 850 CFM.

Installation Example:

A consumer purchases a cooktop with these specifications:

- Four burner, 36" cooktop
- Burner output is 60,000 BTU
- The cooktop features a grill
- Installation requirements call for the range hood to be 33" over the range (3" above recommended maximum height)

Blower CFM Option 1: (Using the guidelines above)

The blower must equal a minimum of 600 CFM (60000 BTU) + 200 CFM (for Grill requirement) + 100 CFM (for 3" of installation height) = 900 CFM

Blower CFM Option 2: (Using the guidelines above)

Select a range hood that is a minimum of 3" WIDER than the cooktop, a minimum 600 CFM (60000 BTU) + 200 CFM (for Grill requirement) = 800 CFM

Internal, In-Line and Exterior blower specifications table

** Model 332KR Rough-In Kit required for installation with hood series E60000, E64000, RM60000 and RM1P (Model 421 10" In-Line damper recommended for Exterior blowers).

* Straight CFM/Right angled CFM (rated with transitions provided).

† Transitions provided with unit.

^ Not recommended for use with grill applications.

Broan Automatic Make-Up Air Dampers work with range hoods to allow the most efficient and effective home ventilation.

Broan Make-Up Air Dampers feature:

- Heavy duty galvanized steel construction.
- 24 VAC transformer.
- 6-inch round (MD6T), 8-inch round (MD8T) to use with hood models E60, E64, EW58, EW56, EI59, QP3, and QP4.
- MD6TU and MD8TU can be used with any Broan range hood over 300 CFM.
- MD6S and MD8S slave damper to gang with any Broan automatic dampers.

Installation of Broan Make-Up Air Dampers

- Located in a 6-inch or 8-inch duct running between an exterior wall fresh air inlet (641FA of 643FA) to an interior location.
- Low-voltage wiring transmits open/close signal to the Make-Up Air Damper.

Synchronized Operation with Range Hood

- Damper opens and closes as the range hood is turned on and off.
- Prevents unwanted air infiltration and wasted energy.

HVI-2100 CERTIFICATION

Broan range hoods are tested and certified by the Home Ventilating Institute. This is your assurance that each Broan unit has been tested and found to consistently deliver the air and sound performance specified.

■ Refers to ENERGY STAR Homes V3, HVAC System Quality Installation Rater Checklist items 8.1 and 9.1.

Broan range hoods can be used to comply with California's Title 24.

HVI-2100 CERTIFICATION

Broan range hoods are tested and certified by the Home Ventilating Institute. This is your assurance that each Broan unit has been tested and found to consistently deliver the air and sound performance specified.

■ Refers to ENERGY STAR Homes V3, HVAC System Quality Installation Rater Checklist items 8.1 and 9.1.

Broan range hoods can be used to comply with California's Title 24.

Broan® is America's leading brand of residential ventilation products including range hoods, ventilation fans, heater/fan/light combination units, Indoor Air Quality (IAQ) Systems, built-in heaters, whole-house fans, electric and solar-powered attic ventilators and trash compactors.

NuTone® is America's leading brand of residential built-in convenience products including door chimes, central vacuum systems, intercom systems, ceiling fans, home theater speakers, medicine cabinets, ironing centers and ventilation fans.
