PORTABLE POWER STATION KTB500

Klein Tools' KTB500 Portable Power Station has been designed with the job site in mind. The 505Wh lithium-ion battery provides power to electronic devices and mid-power, corded tools to keep the job running. Its environmentally friendly, pure sine-wave power is a better alternative to loud, exhaust-emitting gas generators.

Collapsible handle

USB output on/off button

Air vent
